Bob DesPain’s Address to the Board:

Good evening, how this board conducts the people’s business is at least as important as what you do. For example, the form used to request to address the Madison County Board asks for an explanation of what the resident wants to talk about. Think about it that only benefits this board and administrators and clearly not the county tax payers who you represent. Next the board’s meeting agenda that is prepared by the County Clerk for these meeting states: to members of the Madison County Board. I believe the least that should be done is to eliminate that self serving phrase. The clerk can look at the agendas of Alton, Collinsville and Edwardsville for agenda examples. All three site the right to speak law on the agendas. Clearly that item should appear on the county agenda. The board should welcome all of its residents to present their improvement opportunities. When the chairman presents the recipient awards, he faces the board members. This podium here is positioned in such a manner that I knocked it over last time and I am not too sure anybody can hear me, it is mainly positioned to speak to these folks here and if you are not familiar with it, you stand here trying to figure out where to hold their belongings. Maybe we can figure out a better way to do that. Before I start on the final issue, I want to give a compliment to finance and government operations committee under the chair of Jack Minner, whom I’ve never known or recognize if he was here. I believe Mr. Minner has the only committee that provides audio and I am an advocate of transparency. I hope he takes that to the executive committee and requests a video. Lastly, the States Attorney has done nothing to cease this board’s violation of the open meetings act regarding convenient times for the public telling our youth that state laws can be broken is a bad example. Change comes in small increments and sometimes should be started and how it is done is important. Thank you.

Illinois Environmental Protection Agency

PUBLIC NOTICE

PROPOSED RENEWAL OF THE CLEAN AIR ACT PERMIT PROGRAM PERMIT HIGHLAND LIGHT AND POWER

Highland Light and Power has requested that the Illinois Environmental Protection Agency (Illinois EPA) renew the Clean Air Act Permit Program (CAAPP) permit regulating air emissions from its municipal power plant located at 501 Ninth Street in Highland. Based on its review of the application, the Illinois EPA has made a preliminary determination that the application meets the standards for issuance and has prepared a draft permit for public review.

The Illinois EPA is accepting comments on the draft permit. Comments must be postmarked by midnight January 4, 2014. If sufficient interest is expressed in the draft permit, a hearing or other informational meeting may be held. Requests for information, comments and questions should be directed to Brad Frost, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO Box 19506, Springfield, Illinois 62794-9506, phone 217-782-2113.

The repositories for the draft permit documents are at the Illinois EPA's Offices at 2009 Mall Street in Collinsville, 618-346-5120 and 1340 North Ninth St, Springfield, 217-782-7027 (please call ahead to assure that someone will be available to assist you) The documents may also obtain copies of the draft permit and project summary at www.epa.gov/reg5oair/permits/ilonline.html. Copies of the documents will be made available upon request.

The CAAPP is Illinois' operating permit program for major sources of emissions, as required by Title V of the Clean Air Act (Act). The conditions of CAAPP permits are enforceable by the public, as well as by the USEPA and Illinois EPA. In addition to implementing Title V of the Act, CAAPP permits may contain "Title I Conditions," i.e., conditions established under the permit programs for new and modified emission units, pursuant to Title I of the Act. The permit contains T1 conditions in section 4.1.2 that were established in previously issued permits. The permit contains no T1 conditions that are being revised or newly established by this application.

The beginning of this public comment period also serves as the beginning date of the USEPA 45 day review period, provided the USEPA does not seek a separate proposed period.

Mr. Adler moved, seconded by Mr. Asadorian, to adopt the four (4) foregoing resolutions.

On the question:

Ms. Kuhn: With the bidding policy being 3 bidders, why was there only one bid?

Mr. Adler: I believe it is a Trane contract, it is Trane equipment and they are the only authorized vendor for the St. Louis area.

Ms. Kuhn: What would this chiller cost new?

COLLECTIONS CARE/ COLLECTIONS MANAGEMENT

In addition to day-to-day operations, MCHS museum staff is currently:

- Taking inventory, photographing, and cataloging early acquisitions received prior to obtaining a computer inventory system as well as processing new acquisitions.

- Enhancing the Native American artifact collection with a goal of establishing an exhibit geared toward fifth grade students who annually visit the museum.
- Photographing and inventorying all of the other objects in the Native American Artifacts Room.

The Museum staff planned and curated a major exhibit “*If I Fall, My Grave Shall Be Made in Alton: Elijah Lovejoy’s Journey from Minister to Martyr.*” The exhibit was on display from February to September 2013.

Preparations began for the next major exhibit “*Tools of the Trade: Surveyors and Topographers.*”

LIBRARY ARCHIVES

Heavy use of our research library continues with research requests coming to us in writing, by Library visit, and by phone.

Archival Library activities:

- Hosted the “Tube Sock Palooza” event to help identify people in photos from the Dick Norrish collection. The name was suggested by a library volunteer who noted that many of the children in the photos were wearing tube socks. Over 700 people were identified in the approximately 850 photos in the exhibit. The photos were scanned and entered into our cataloging system.
- Continued indexing Madison County Poor Farm records.
- Celebrated the publication of “Madison County,” a pictorial history from Arcadia Publishing authored by Archival Research Manager Mary Westerhold. She presented a program based on the book in June. Photographs from the book were pulled primarily from the MCHS collection. All proceeds from the book benefit the Madison County Historical Society.
- Consulted with Madison County Recorder of Deeds Amy Meyer and her staff regarding their preservation needs. The Recorder’s Office loaned a large map of Edwardsville’s Woodlawn Cemetery to the Historical Society.
- Continues to collaborate with the Madison County Circuit Clerk Mark Von Nida and his staff to preserve early county probate records. The Archival Library staff and volunteers are currently processing over 1,350 drawers of probate files dating from the early 1900s.

**A RESOLUTION ESTABLISHING SALARIES FOR COUNTY CLERK, COUNTY TREASURER,

Mr. Minner moved, seconded by Ms. Ciampoli, to adopt the foregoing resolution.

On the question:

Mr. Petrillo: This is not an easy thing to do. After we met for a short while to discuss these raises, my initial thoughts were this is fine. I believe there are people that deserve raises. I am working from the premise at some point and time the six positions you are trying to put on a level ground and believing that each one of those positions have duties and responsibilities that we place at that same level and we consider them equal. As I look at this, I noticed at this particular time there is just under a \$3000.00 difference between group a and group b. If we approve this contract, what it appears to me, and I can stand to be corrected, I am not a math genius. But next year that difference will grow to \$3,500.00. If we continue to have this type of contract, the differences between a and b will get nothing but greater. At some point, working on the premise that they are equal, it's going to be difficult to all of a sudden we need to put in this X amount of dollars to put all of them at that same wage. I don't know what to do and I don't know if I can explain it clearly and I don't know if this is the place or time to do that. I do see as I looked at it, there are three options. One of them would be to table this and to address this issue and see if we could make these salaries more comparable in a shorter period of time.

Mr. Dunstan: Let me try to answer this, you can't change the salaries that were set for the other elected officials in the past. All we are doing is changing for the elected officials in the future. Even with what we are doing today on these salaries, they are going to get paid less than the ones that were set two years ago. They are going to be \$3000.00 under. For example, you are going to have the Sheriff of the county making less money than the Recorder of Deeds. The time you would probably answer that would be not this time, but two years later.

Mr. Petrillo: That is another option. As I looked at this, we could possibly take that \$2,974.00 and give it to group b and that would make group a and b equal. But from there you would have to do the figuring of the contract, which I don't think would work out at 2% each year. If we wait a couple of years down the road, we are looking at group a taking a 0% and possibly the next year getting a raise of \$108.00. As I look at it, I don't see as we go 2% the next four years and group a does have 2 years left on their contract and they are going at 2.5%, it appears to me that the difference between their salaries will widen. My concern is shouldn't we be addressing the difference between their salaries rather than later?

Mr. Dunstan: This was brought up at the committee, the problem we have is that first year you would be looking a little over a 5% increase. I just don't think that is a reality. I can't say enough about the board members have been doing on their salaries; the elected officials took a 0% in the past. I have not had anyone complain about the 2%, they understand it. And probably the best fix would be in two years when you set the other salaries. I did not think it was feasible to bring this up the first year at 5% and to be honest I think it will be a tough vote for this board. And this was discussed at the executive committee meeting and I think this was a compromise. I understand your concerns. This resolution is for the three elected officials up for election in 2014, Sheriff, County Clerk and Treasurer. Even with this increase, they will be making less money than the other elected officials, but I don't see an easy way to fix this. I did not think we wanted to bring up a 5% increase the first year.

Mr. Asadorian: It has always been my understanding that we have 2 groups and they are basically equal for 2 years and then one group goes ahead two years later because of the election. So we are not going to have that now?

Mr. Dunstan: When the economy changed, we had some problems, this county board made cuts that we had to make. We froze salaries and every elected official took a 0% for two years. I think all union people have taken one; all department heads have taken one. They only people that have gotten an increase were the Sheriff's Protection which got a 2.5%, and that is because they went through binding arbitration. Once again this is the dilemma we have, if you bring them up to level, you could do that but you would be voting a 5% increase that first year and I don't think we can do that, it's my personal opinion, as a public policy, I don't think it would be reality. I think the time to fix this is would be two years later. This is just my opinion. We have talked about this at the executive committee for quite awhile.

Mr. Malone: I think the only way we are going to do this if it is in two years, we are going to have to use a flat rate and get away from percentages and just establish flat rate salaries. It is probably the only way we can get these equaled out.

Mr. Dunstan: In the future that is something we might have to do.

Mr. Madison: Since this is for elected officials, I would just say it seems like this is a very good salary. We all know when we decide to run for a position we know what the pay is and it is us that makes that decision to run for that job, I don't see the need for those raises. If one department makes a little more than another department and it is two different jobs I don't know why they have to be the same. I don't think it is really important.

Mr. Dodd: In response to that, a gentleman goes to the factory and accepts a position. I guarantee he don't expect to stay there and work the rest of his life at the same salary he was hired as.

Mr. Madison: He also doesn't have to run again.

Mr. Dunstan: We are not going to get into a debate about this.

The ayes and nays being called on the motion to adopt resulted in a vote as follows:

AYES: Asadorian, Brazier, Burris, Ms. Dalton, Davis, Dodd, Ms. Glasper, Goggin, Ms. Gorman, Ms. Hawkins, Malone, Minner, Ms. Novacich, Robertson, Ms. Roosevelt, Semanisin, Ms. Tracy, and Trucano.

NAYS: Adler, Alons, Ciampoli, Holliday, Kuhn, Madison, Maxwell, McRae, Meyer, Petrillo and Walters.

AYES: 18. NAYS: 11. Whereupon the Chairman declared the foregoing Resolution duly adopted.

Mr. Dunstan: Mr. Petrillo, your comments, I do know what you are saying, we talked about this at executive committee, we just need to figure out some way in the future to get a handle on it.

Mr. Petrillo: Because we always don't understand yes and no votes, my no vote was simply because I felt maybe we could level the field sooner. It was not against these elected officials receiving raises. I do believe they should.

Mr. Minner moved, seconded by Ms. Novacich, to adopt the two (2) foregoing resolutions.

On the question:

Mr. Madison: I just wondered what this stipend is for and what it is originally designed to do. Was this something designed a long time ago and it doesn't list what their salary is?

Mr. Parente: These stipends have been in place for a long time. They are actually authorized in the statutes under each regional superintendent and under the sheriff's responsibilities. Under the supervisor of safety for the sheriff there are actually duties enumerated in the state law and there is a clause in there specifically says the regular sheriff's compensation shall not be used for these purposes. The county board may set additional compensation. There are actual duties that the sheriff has outside of his responsibilities as County Sheriff, as head of security at the courthouse and as head of the jail, it has to do with traffic and safety, cities, outside cities, highways. That is the purpose of that one. For Regional Superintendent of Schools it is different, the state pays the Superintendent's salary, and the county does not. In the statute it says how much that salary shall be. Quite frankly there is not much difference in the salary for a county of 50,000 or a county of 800,000. It is pretty similar, it says the county board may provide additional compensation if it chooses. Really I believe what is behind this is to try and get the Regional Superintendent who holds the same qualifications as the school superintendents a little closer in salaries. There is a gap between what the schools superintendents make and what Mr. Daiber or whoever holds his position makes. It doesn't close the gap completely; it hasn't changed for some time now. This is pretty much the primary reason behind it.

Mr. Dunstan: That gap is extremely large and this increase has not changed. This has been the same since I have been a county board member.

Mr. Madison: The reason I ask is I read that this stipend was designed for people in rural areas and they had a hard time trying to find someone to run for the position.

Mr. Dunstan: That I don't know.

Mr. Petrillo: As chairman of the committee that Mr. Daiber reports to, I can tell you, his duties and responsibilities in my opinion have grown a great deal. I think that Dr. Daiber has a lot of foresight and planning on what is to come in the future. I would hope in the future, we can get off this number of \$10,000.00 and raise it. I don't know exactly what his salary is, but I know in this county and the school he takes care of and the number of things he is responsible for I think that would dictate that we need to get off the \$10,000.00 and move higher.

Mr. Madison: Did you say the salary?

Mr. Parente: It is approximately \$105,000.00.

Ms. Hawkins: When it comes to raises, anybody who gets a raise and you feel you don't want that raise all you have to do is get a hold of the chairman or Joe and give it back. You will have to fill out the forms and give the money back and it will go into the general fund. It is an easy way if you feel you didn't want that raise.

The ayes and nays being called on the motion to adopt resulted in a vote as follows:

AYES: Asadorian, Brazier, Burris, Ms. Dalton, Davis, Dodd, Ms. Glasper, Ms. Gorman, Ms. Hawkins, Holliday, Malone, Minner, Ms. Novacich, Petrillo, Robertson, Ms. Roosevelt, Semanisin, Ms. Tracy and Trucano.

Mr. Minner moved, seconded by Ms. Tracy, to adopt the foregoing resolution.

On the question:

Mr. McRae: We are transferring 4 million dollars from the general fund to the capital project fund?

Mr. Dunstan: Correct.

Mr. McRae: What is the balance in the capital projects fund now? Isn't it about 5 or 6 million dollars?

Mr. Parente: Yes, it is in that range.

Mr. McRae: So why do we need to move 4 additional million into it and why now?

Mr. Parente: We had this discussion when we were talking about the jail bonds. We have capital projects that we are using existing revenue including that in the general fund to pay for. I believe we had identified about 7.4 million dollars in projects that were either ongoing or we are getting ready to start. So the transfer of the 4 million out of the general fund will provide us with the proper resources to pay for all those projects and we have an additional 3.5 million in our 5 year plan. It is just a matter of setting aside the money for these capital projects rather than financing them or doing something like that.

Mr. McRae: I realize we have identified those projects and some of them aren't going to be completed or even started on until next year, right?

Mr. Parente: We are planning on moving forward with most of them in 2014. Now some of them will take more than a year to build out, but we are separating the funds so that we have the green light to move forward with them. The big ticket items are what we have talked about at the courthouse, the tuck

pointing of the ceiling, the roof on this building, the HVAC system. Those are the projects we are targeting.

Mr. Dunstan: We will still have to spend even if the bond issue does not pass, we still are going to have to spend money on the jail and that is going to have to come from that fund also.

Mr. McRae: Probably one way or another we are going to have to do something to the jail. It seems to me that I would like to see us retain as much money in the general fund for as much flexibility as possible, at least until March when we know more about the jail bonds.

Mr. Dunstan: Actually it's just the opposite of what you are saying is true. By putting that money into that fund and that is the fund we use to do these types of projects and that means you can't spend it on anything else. That is basically why we are doing this; we want to make sure it is being used for capital projects.

Mr. McRae: I understand that, but then it is earmarked for certain capital projects and rather than letting the horse leave the barn, perhaps we should re evaluate some of the projects that maybe can wait another year.

Mr. Dunstan: It's actually not earmarked for any certain projects. Even though it goes into those funds, it has not been earmarked to any certain projects. Once you put into those funds, it has to go through this county board to see how that money is going to be spent.

Mr. McRae: I am not trying to debate you. Once you start on a project you want to finish it. So if you start on tuck pointing, which may be able to last a year or two from now, as an example, if you would start that, which is a million dollar project that should be completed? This is my opinion; I would not like us to make that transfer until we have the vote on the bonds.

Mr. Dunstan: Once again, when you put it in there that is what you use for the money. If you don't have the money in there you are not going to do that project.

Mr. Minner moved, seconded by Ms. Tracy, to adopt the foregoing resolution.

On the question:

Ms. Ciampoli: My question is to the tort judgment and liability fund, my question is the amount in the emergency appropriation into the internal service fund, its \$910,000.00 going into that fund, I am curious why?

Mr. Parente: This number is not correct, Jennifer do you have the correct one? It's not an expenditure of money; it is an adjustment to our financial statement. We have to put in reserves any type of claim we believe may be possible that we have to pay out. At the end of each budget year we go through this exercise of each year, taking some out of that reserve and putting it back based on what happens. This number is incorrect it's actually going in the opposite direction. This transaction isolates \$270,000.00 for potential claims in the future.

Ms. Ciampoli: So my question is did this area overspend or what happened with the money? I don't understand.

Mr. Parente: Again, we are not spending, we are reserving, just putting a lean on a certain amount of money for claims that have been made against Madison County that a consultant has told us to set reserves for that purpose in case we have to pay it out.

Ms. Ciampoli: Do we have any pending claims in that area?

Mr. Parente: We have a lot of claims against Madison County. It's an ongoing exercise we go through every year.
